PERSONAL INTRODUCTION

I am currently a student at KTH studying in my second year of the program CINTE, with plans to take a Master's degree in Cybersecurity. My coursework and projects have given me a foundation in areas such as network security and system vulnerabilities, and I'm extra passionate about secure development and threat analysis. I'm eager to apply my skills and contribute to protecting digital systems in a real-world setting.

EXPERIENCE

Egmont, Solna/Stockholm – Image sorter

Fall 2018 – Spring 2021

I worked with sorting images by applying appropriate tags to said images used in magazines, for further use in future magazines

Summer Job at Fryshuset, Sjöstan/Stockholm – Cultivation and school kitchen

Summer 2022

Issued work from the state where I cooperated with a team of young adults to cultivate organic greens and also assist the school kitchen

KFX, Stockholm – Ambulatory Konsult

Summer 2022 - Fall 2023

I worked as an Ambulating receptionist, which has given me experience at multiple workplaces, including but not limited to:

Story House Egmont, reception

Canon in Solna, internservice

Intertek, Internservice

Kiwa, Reception

EDUCATION

KTH, Kista – CINTE (Civil Engineering in information technology)

August 2023 - Now

education plan:

<https://www.kth.se/student/kurser/program/CINTE/20232/arskurs1>
